

# AVAMORE SM SERIES

## SPIRAL MIXERS

AVAMORE Spiral mixers are robust to take the heaviest mixes yet are simple to use and easy to clean. The main body is made from castings giving the mixer the strength to cope, all the parts of the machine that come into contact with the food product are made from stainless steel. Special gear driven transmission ensures reliability with these fixed bowl spiral mixers.

### Easy to use.

Simple operation and ease of use are a feature with these mixers, some models can have the optional two speed transmission fitted giving you the greater benefits for lighter dough mixes.

### Hygienic Construction

The body and outer casing are made from castings with a hard enamel finish in white, the bowl, safety lid and hook are manufactured in a 304 stainless steel.

### Simple to Install

All models are free standing floor mounting machines with adjustable feet. The electrical supply from a 13AMP switched outlet or 20AMP for the 3 phase machines.

### Safety

Fitted with push buttons 'start' & 'stop', which incorporate a no-volt release device to avoid unintentional start up. Lid with safety switch incorporating bowl guard.
