

AVAMORE SD SERIES

SALAD DRYERS

AVAMORE heavy-duty salad dryers are ideal for the larger kitchen, preparation rooms and sandwich shops. With a choice of two models, two variants and three optional stands there is a design to meet your needs.

Quick and Easy to use as a dryer

The lettuce or other light salad may be poured through the splash lid opening or the drum can be removed and filled with the lettuce or other light salad. A full load can be dried in one to two minutes.

Quick and Easy to use to rinse and dry

With water inlet connected to a suitable tap, by turning the water on for a few minutes you can also use these machines to final rinse the lettuce or salad and leave the machine running to then dry the salad.

Hygienic Construction

The body and drum are manufactured in stainless steel. All other components are manufactured in corrosion resistant. All internal parts are paint free.

Simple to Install

The models SD8 and SD12 salad dryers require a bench or worktop mounting. These salad dryers are so versatile you can also permanently install them with a single bolt to a worktop, have them floor mounted using one of the pedestals or fit them to a mobile stand for ease of movement and storage.

These salad driers are supplied complete with, inlet hose with fittings waste outlet connection \varnothing 40mm and 13amp moulded plug (or suitable).

Safety

Fitted with push buttons 'start' & 'stop', which incorporate a no-volt release device to avoid unintentional start up.

Models

8SD bench model.
8SDPT bench model with 0-7 minute electronic timer.
12SD bench model.
