

# AVAMORE SERIES AGS250 ~ AGS370

## GRAVITY FEED SLICERS

Designed for medium to heavy duty use, this range of slicers provides trouble free slicing of hot or cold cooked meats, salami and other meat products. All four models have manual product holder operation with a combined last slice device and clamp.

### Efficient Operation

Finished to the same high standards with built-in reliability associated with all Avamore products. All models feature a powerful motor for ease of slicing and an integral sharpening attachment for a simple but safe way to maintain 'the blades' cutting edge. The product is feed at an angle of 35° to the blade ensuring the product slides by gravity for slicing.

### Hygienic construction

With highly polished corrosion resistant anodised aluminium body and all components that contact the food product, a hardened chrome steel blade these slicing machines are easy to keep clean even with the blade in place.

### Safety

This range of slicing machines has been designed to comply with the European Standard EN 1974, and therefore offers you and your staff the very highest safety standards.

### Standard Equipment

Clear perspex finger and thumb guard, last-slice device, integral sharpener, blade removing device, sharpening stone cleaning brush and lubricating oil.

### Optional Accessories

Teflon Coating to blade, blade cover and thickness plate.

Special Clamping arm on models AGS350 and AGS370.

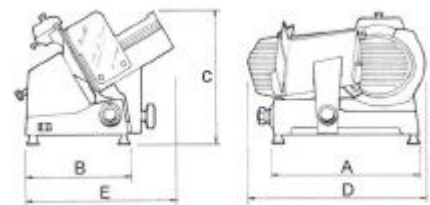

Low Voltage motor 24V

Aluminium Knobs
